## Gyrus Medical Limited UK Tax Strategy

Responsibility and accountability for the Group's tax affairs is clearly defined, and decisions are taken at an appropriate level.

The level of risk which Gyrus Medical limited accepts in relation to UK taxation is consistent with its overall objective of achieving certainty in the group's tax affairs. Diligent professional care and judgement are employed to assess tax risks in order to arrive at well-reasoned conclusions on how the risks should be managed. Gyrus Medical limited has a conservative approach to tax risks and seeks to mitigate tax risks as far as possible. Where there is uncertainty as to the application or interpretation of tax law, appropriate written advice evidencing the facts, risks and conclusions may be taken from third party advisers to support the decision-making process and/or consideration may be given to using HMRC's Non-Statutory Clearance Service.

In reviewing the risks of a tax action or decision, the following would be considered:

- The legal and fiduciary duties of directors and employees,
- The requirements of our Group compliance and ethics policies,
- The maintenance of corporate reputation, having particular regard to the principles regarding the way we interact with the communities around us.
- The tax benefits and impact on the Group's reported result comparative to the potential financial costs involved, including the risk of penalties and interest,
- The wider consequences of potential disagreement with tax authorities, and any possible impact on relationships with them.
