

VN-733PC

- USB connection for fast downloading to PC
- 4GB internal memory / up to 1600 hours recording (LP mode)
- microSD(HC) Slot
- Calender search function
- High sound quality: WMA file format and popular mp3 format
- Recording Scenes
- 5 folders for file storage, 200 messages per folder
- Voice activated recording (VCVA)

Cost-efficient and high-performance

The VN Series' high-end model is the simple but smart VN-733PC. With its array of features and user-friendly operation, the VN-733PC makes voice recording easy and efficient - for everything from business to everyday use.

With the new Simple Mode, only essential information are displayed in large font and menu options are limited to frequently used functions, making it ideal for beginners whereas in Normal Mode, full functionality is available for additional options. The large, omni-directional, low-noise microphone is able to record sound from all directions with less noise and reduced breath sound, ensuring high quality recordings and playback. A built-in stand on the back of the recorder makes desktop use even easier and helps reduce surface noise for increased clarity. 'Telephone Recording' and 'Duplication' are two new scenes which allow you to optimize the quality to record telephone conversations and duplicat cassette tapes.

Specifications

Storage Media

Internal / Removable Media	Internal + Removable
microSD / microSDHC card	Yes (up to 32GB)
Internal memory	4GB

USB functionality

USB Speed	USB 2.0 High Speed
USB Classes	USB Storage class

Display

Display colour	White
Display Size	27.6 x 23.9mm
Display Type	Full Dot Matrix Display (108 x 84 dots)
Font size setting	Yes

Device operation

HOLD switch	Yes
Power switch	Yes
