- Easy organisation of files
- Job status info (e.g. finished, pending, cancel job)
- 3 pedal USB foot pedal for hands free player control
- Professional audio transcription player
- DSS file management using separate folders
- Author ID setting by software

Comfortable transcription for your business

The basic transcription kit AS-2400 guarantees a convenient transcription of audio files. The included 3 button USB foot pedal allows the user to control the DSS Player Standard software with his foot to have the hands free for fast typewriting. The lightweight (28g) E103 stereo under-the-chin head phone is comfortable to wear even over hours and does not harm the user's haircut. The simple graphical user interface allows a quick start into the audio transcription world of professionals. Several audio codecs established in professional dictation are supported.
