

LG-1 Light Guide

- Perfect fit for the Olympus TOUGH TG-X series
- For illuminating macro subjects evenly from all sides
- Lightweight
- Quick application to the camera after removing the lens ring
- Assists in lighting subjects without casting shadows on them

Shoot spectacular macros

When shooting for true close-up with an interchangeable lens camera, a ring flash with an emitter around the lens is used to avoid casting shadows on the subject. The similar effect can be achieved with the LED Light Guide. The LED Light Guide, LG-1 can be attached to the lens of the compatible TG-series camera, using the built-in LED light to evenly illuminate the subject, drawing out the best of the TG's macro photography abilities. Compatible with: TG-2 / TG-3 / TG-4 / TG-5
