

## FL-BK01

- Flashbracket for use with Olympus FL-50R, FL-36R, FL-50, FL-36, FL-20
- Connecting an external flash to our digital cameras

---

## Flash Bracket Cable for external Flash

The flash bracket FL-BK01 allows you to move your external flash away from the camera. This results in more evenly illuminated subjects and reduced red-eye effect. It gives your shots a more natural look. A flash bracket cable is additionally required to connect the external flash to a compatible Olympus digital camera.
