

EP-8

- Eye Cup bundled with E-620
- Eye Cup for the E-620 to have a clear view on the optical viewfinder information

Eye Cup bundled with E-620

This standard eye cup, which is made of flexible rubber, shields your eyes not only during landscape and portrait shooting. It is included in the box content of E-620, but can also be used with all E-System cameras except E-1.
