

## ECG-2 Camera Grip

- Ergonomic design for firm grip & increased stability
- Fast access to battery compartment
- Integrated tripod mount

---

## E-M5 Mark II super-stable grip

Make your experience of the E-M5 Mark II even better - enjoy the ultimate ECG-2 camera grip for enhanced handling. With its high-quality, robust metal construction, this larger grip ensures even clearer and sharper images. Once attached to your E-M5 Mark II, the grip's ingenious design gives you instant access to the battery compartment - without having to unscrew the grip leading to shorter interruptions whilst shooting. It also sports a quick shoe rail feature which allows one-touch mounting to compatible tripods and other mounting devices. Removing the camera is of course, just as quick!
